DECREES

Art. 1 - Object
A selection procedure by qualifications and interviews is hereby opened for the assignment of 1 junior research fellowship lasting 1 year.

Research Title: “Health Outcomes of Educational Mismatch”

Research Project: The project aims at investigating how labour conditions experienced by individuals can affect their health and well-being. Among possible labour conditions, we will focus on educational mismatch. Educational mismatch (such as overeducation and undereducation) has been highlighted as a relevant phenomenon in both developed and developing countries. The number of mismatched employees in the EU economy is expected to increase during the next years. However, its influence on health has been scarcely explored. The research project aims at investigating empirically the effects of educational mismatch on health and well-being in Italy and other European countries by exploiting different datasets (such as “Aspetti della vita quotidiana” Survey (ISTAT), World Health Survey (WHO), SHARE) and applying the most suitable econometric methodologies.

The research will be performed at the Department of Economics located in Via Monte Generoso, 71 – Varese (Italy)

Research Coordinator: Professor Silvana Maria Robone
